“THE CREATION OF FUNCTIONAL AND DECORATIVE POTTERY TO CONVEY A BIBLICAL MESSAGE”

---

The visual arts have a unique ability to express a larger world view.

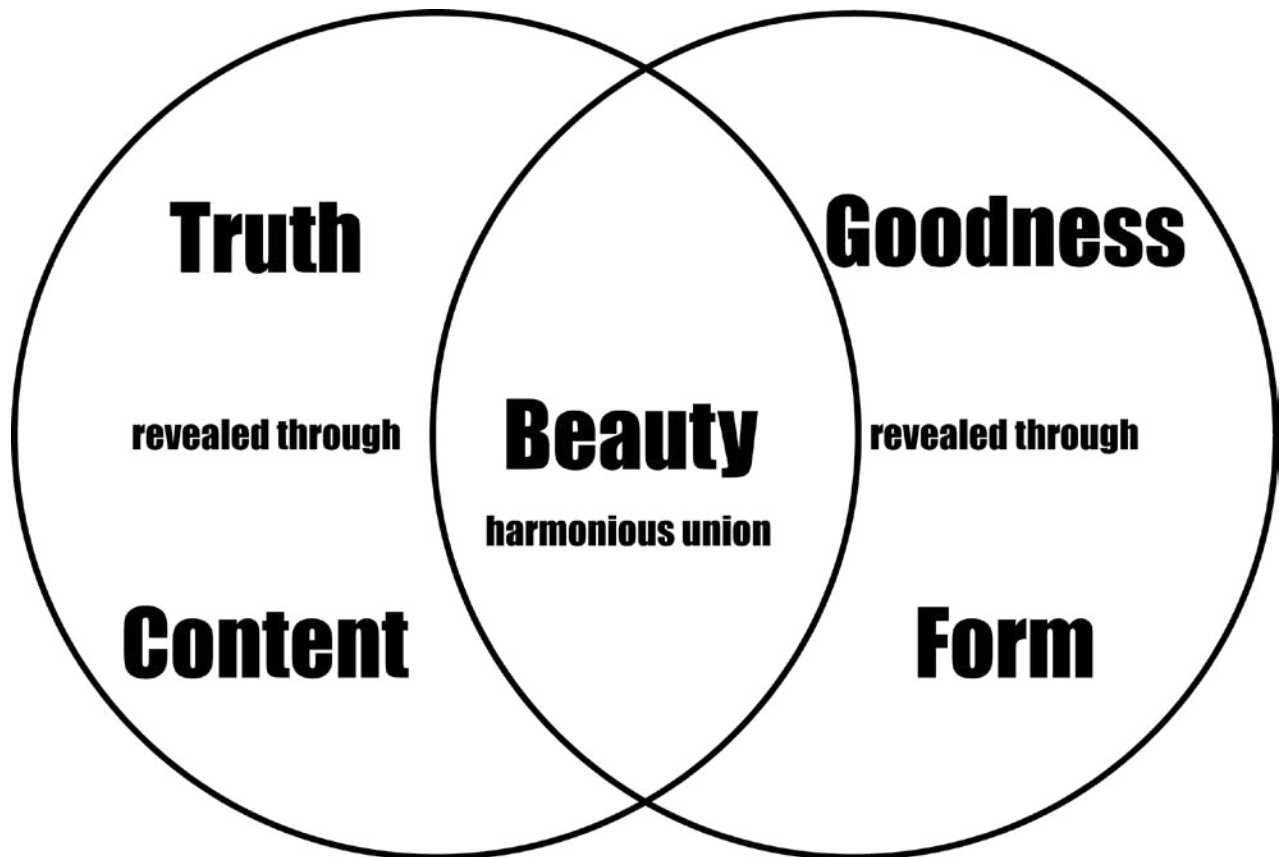

Seen here are selected pieces from my Masters Degree Exhibition focused on the creation of functional and decorative pottery to convey a biblical message.

Guided by a careful analysis of the Scriptures, and Christian apologetics, the content of each piece expresses Truth.

The design, specified complexity, careful construction, and various surface treatments of each form evidence Goodness.

The experience of Beauty is a result of the harmonious union of form and content, Truth and Goodness.

My hope is that you will be blessed as I have been blessed.

~Jonathan D. Schneider
